

### **IFT #3 (India's Future Tycoons Season 3)**

India's Future Tycoons is a platform that offers an opportunity to students who are 13 to 17 years of age and have change driver ideas, to kick-start an entrepreneurship venture. Registration for the event is started from November 20 onwards. December 30 was the last date of submission. We have received many ideas from students and mentored them to present an innovative idea for the submission. Two teams were screened and submitted their ideas. Teams are as follows

1. ATHENA ER SOLUTIONS: Haeba Sara Alexander (XI) & Nidhi Elza Allen (XI)
2. SAFE CHAMPS: John J Karian (IX) & Ryan Binoy (IX)

From 596 schools 7300 students participated in the competition, IFT has selected 400 teams in the zonal for boot camp, we are so happy to share the achievement that all registered two teams from our school are selected. Our school is one of the three schools selected from Kerala. They got an opportunity to participate in online Boot camp of five days. In the next level Team Athena ER Solutions were shortlisted in the Top 24 Teams. They went through rigorous training in the form of bootcamps, interaction with mentors and presentation to expert juries! They achieved a commendable feat of qualifying for the **Top 24 teams and making it to the Semi-Finale of the competition out of 7300+ students, 252 cities and 596 schools!**

We consider it as a great achievement since we are participating in it for the first time and special appreciation to Mr. Jithin Lawrence, Tinkering Lab-in Charge and Mrs. Maria Catherine for motivating the students.
